The Academic Collection from Gale brings together 231 different titles from the following seven subject areas: History; Arts & Literature; Business; Science; Medicine; Religion; and Social Science. These titles provide up-to-date and comprehensive information, enabling your library to meet your patrons' needs. Furthermore the information is available anytime, anywhere.

Collection titles include:

Encyclopedia of Management

Covers more than 300 topics in management theories and applications. Topics include aggregate planning, benchmarking, logistics, diversification strategy, non-traditional work arrangements, performance measurement, productivity measures, and supply chain management

Gale, 1 volume
ISBN: 9781414438030

Arts & Humanities Through the Eras

Profiling milestones and movements in the arts, literature, music and religion from a specific period, each volume in this set helps students and researchers understand the various disciplines of the humanities in relation to each other, as well as to history and culture. Nine chapters follow covering the major branches of the humanities: architecture and design, dance, fashion, literature, music, philosophy, religion, theater and visual arts.

Gale, 5 volumes
ISBN: 9780787693848

Gale Encyclopedia of World History: War

Provides a broad overview of war throughout world history, from ancient times to present, with a special emphasis on its causes and repercussions. Includes major figures, major battles, key elements of war craft, and the impact.

Gale, 2 volumes
ISBN: 9781414431512

Complete Dictionary of Scientific Biography

Contains biographies of mathematicians and natural scientists from all countries and from all historical periods. It presents an accurate and reliable narrative of the development of science, not as a mere accumulation of technical information but as the collective accomplishment that has ordered our understanding of nature. By detailing the achievements and personalities behind the quest to understand the natural world, the title sheds light on not just the history of science, but on the history of humankind.

Charles Scribner's Sons, 26 volume set
ISBN: 9780684315591

Complete Human Diseases & Conditions

Created by a team of doctors and health education experts based at the du Pont Hospital for Children, this user-friendly, accessible and colorfully illustrated work presents an outstanding basic resource for understanding diseases and conditions. This eBook gathers the entries from the three volumes of the first edition plus the two supplements in one table of contents, offering the chance to digitize, or even expand, your print holdings of this valuable work.

Charles Scribner's Sons, 3 volumes
ISBN: 9780684315416

Encyclopedia of Religion

With a cross-cultural approach, while emphasizing religion's role within everyday life and as a unique experience from culture to culture, this new edition is the definitive work in the field for the 21st century.

Macmillan Reference USA, 15 volume set
ISBN: 9780028659978

Gale Encyclopedia of Alternative Medicine

Unbiased information on alternative and complementary medical practices. Covering all aspects of the subject the title identifies 150 types of alternative medicine including reflexology, acupressure, acupuncture, chelation therapy, kinesiology, yoga, chiropractic, Feldenkrais, polarity therapy, detoxification, naturopathy, Chinese medicine, biofeedback, Ayurveda and osteopathy.

Gale, 4 volumes
ISBN: 9781414448770

Encyclopedia of Science and Religion

The multidisciplinary set reaches far into the humanities as well as into the physical sciences and technology. In addition, controversial issues such as human cloning and stem cell research are examined along with more traditional questions such as the origins of life, the nature of sin, and the philosophy of science and religion.

Macmillan Reference USA, 2 volumes
ISBN: 9780028659114

Immigration and Multiculturalism: Essential Primary Sources

Immigration and Multiculturalism offers insight into two centuries of global changes in populations and cultures. Each title contains full or excerpted documents - speeches, legislation, magazine and newspaper articles, essays, memoirs, letters, interviews, novels, songs, and works of art - as well as overview information that places each document in context.

Gale, 1 volume
ISBN: 9781414412658

Encyclopedia of Latin American History and Culture

Looks at every one of Latin America's 37 countries. Content addresses research on prehistoric environments and cultures, U.S. Haitian interventions, the consequences of NAFTA and increased Mexican immigration, the troubled aftermaths of Pinochet's Chile and Fujimori's Peru, truth and reconciliation commissions, and the still-contested legacy of the Mexico City massacre of 1968. New leaders like Brazil's Lula da Silva and Venezuela's Hugo Chávez are profiled along with hundreds of other rising figures in politics, letters, and the arts. Addresses major regional themes including Democracy in the Americas, Hemispheric Affairs, and the Hispanic Impact on the U.S.

Charles Scribner's Sons, 6 volumes
ISBN: 9780684315904

Climate Change in Context

A comprehensive guide to the increasingly important topic of climate change, including global warming. The title offers coverage of the history, politics, and ethical debates related to climate change, including the impact of climate change on daily life, trade and commerce, travel, and the future of both industrialized and impoverished nations.

Gale, 2 volumes
ISBN: 9781414437088
