Always open, always available

With electronic reference books from Gale and our publishing partners, researchers can instantly access thousands of eBooks on virtually any subject. These trusted, authoritative reference works are available 24/7 through our state-of-the-art *Gale Virtual Reference Library* platform, providing an unprecedented combination of functionality and features.

eBooks: Reference made easy

References in eBook format provide a wide range of benefits. In addition to saving shelf space, eBooks can be searched individually or as a complete collection. Online access makes popular titles available to multiple users — and not just during business hours. Your library users can link to reference content through your OPAC or directly from the Table of Contents or Index pages. With electronic references, you can offer unlimited circulation of your collection. Plus the ability to cross-search titles means faster, more comprehensive results.

Give power to your users with the benefits of eBooks:

- Thousands of full-text eBooks from Gale and our publishing partners
- Authoritative references, updated and in electronic format
- 24/7 access from any Internet-connected computer
- No more damaged pages or missing volumes
- ReadSpeaker technology (text-to-speech) allowing text to be read aloud to users and downloaded in MP3 format
- Cross-searchable with select periodical databases and Gale Resource Centers
- No special reader or hardware required
- Unlimited simultaneous use
- Ability to print, e-mail and download articles
- On-demand content translation into 11 languages

The document toolbox allows users to print or e-mail articles, download articles to handheld devices, create and export article citations in multiple formats and much more.

Searching made simple

Our innovative, state-of-the-art eBook platform makes it easy to quickly access authoritative reference information. A subject guide allows researchers to browse all available publications by subject area. Users can combine the following criteria to create as broad or narrow a search as they want and use limiters — such as publication date, subject/discipline and readership level — to refine their search.

- Title
- Keyword
- Image captions
- Publisher
- Author
- Full text
- Publication name
- ISBN
- Starting page

Quickly access articles with Basic Search.

From the search results page, users can view a full-text article in HTML or PDF format. Narrow results by searching within the results list, or by selecting document or publication type.

Highlighted search terms are red wherever they appear for easy identification.

Build your own customised Resource Center

By combining eBooks with Gale's *InfoTrac* periodical content, you can create your own Gale Resource Center — customised to meet your collection development, curriculum and budget needs.

For example, you can create your own cross-searchable Environmental Science Resource Center by combining the Environmental Studies and Policy Collection of periodicals with eBooks such as *Encyclopedia of Environment and Society* (SAGE Publications), *Encyclopedia of Global Environmental Change* (John Wiley & Sons, Inc.), *Encyclopedia of Endangered Species* (Gale), and *Encyclopedia of Energy* (Elsevier).

Combined with periodical content, eBooks allow you to instantly create a pool of authoritative and varied content on virtually any subject

Added value for your library: Free Gale support resources

Promote your library and boost usage of your collection with these marketing support resources available free from Gale.

Have it your way!

It's easy to create eBook subcollections for school assignments or popular search topics. Use the custom *Subcollection Manager* to select relevant eBooks, name the subcollection and add a description. Then post a link to the subcollection from your homepage or course page using one of our free subject- or series-specific graphic banners.

The screenshot shows the 'eBook Subcollection Manager' interface with fields for Subcollection Title, Subcollection Code, Subcollection Description, and Subcollection Banner. A green arrow points from the 'Subcollection Banner' field to a graphic banner below. The banner features a polar bear on an ice floe and the text 'Global Warming and Climate Change Collection'.

RE:sources to help you drive traffic

Access our free monthly e-newsletter and subscribe to our RE:sources blog to pick up tips, share ideas and learn about new features and titles. Simply visit <http://resources.gale.com>.

We also offer free posters, bookmarks, 'e' stickers, press release templates and much more on our "Power to the user" site at www.gale.com/power.

The screenshot displays the Gale Virtual Reference Library website. It features a navigation bar with 'Public Libraries', 'Colleges & Universities', 'K-12 Schools', and 'Special Libraries'. The main content area highlights 'Gale eBooks - reference made easy' and '24/7 unlimited access - No special readers or hardware required'. Below this, there is a 'Log in for pricing' button and a 'Subscribe to RE:sources RSS feed' link. The 'RE:sources Blog' is prominently displayed, along with a widget for 'Just in time for Earth Day - download this Environmental Resources widget'. A 'Download This!' button is visible at the bottom right of the widget area.

Librarians are saying ...

"*Gale Virtual Reference Library* enables Buckinghamshire Libraries to provide easy access to expensive reference books that historically were held at one site. We recently bought the 20 volume *McGraw Hill Encyclopedia of Science and Technology*. It is used far more heavily than the ancient hard copy publication we used to hold at Aylesbury. It is easy to use all of the Cengage products as they are on one dedicated URL and can be searched together. This is especially useful for remote access users.

As we go through various funding crises it is reassuring to know that we only pay a small amount a year electronic maintenance and buy titles as we are able to. This financial flexibility is missing with most suppliers who send us large annual invoices to maintain access to their subscriptions."

- Christine Huglin, Information Specialist

"I can offer higher quality, expensive reference titles to every library branch, not just the main library or our regional libraries... Access to reference titles at home is great; it extends our reference collection – on demand – beyond the library building."

- Andrew Breidenbaugh, Coordinator of Reference & Information Services
