The Medicine Collection from Gale brings together 18 different titles looking at the different aspects of health and medicine, from alternative medicine to surgery to diseases and conditions. These titles provide up-to-date and comprehensive information, enabling your library to meet your patrons' needs. Furthermore the information is available anytime, anywhere.

Collection titles include:

Complete Human Diseases & Conditions

Created by a team of doctors and health education experts based at the du Pont Hospital for Children, this user-friendly, accessible and colorfully illustrated work presents an outstanding basic resource for understanding diseases and conditions. This eBook gathers the entries from the three volumes of the first edition plus the two supplements in one table of contents, offering the chance to digitize, or even expand, your print holdings of this valuable work.

Charles Scribner's Sons, 3 volumes
ISBN: 9780684315416

Nutrition & Well-Being A to Z

Examines how nutrition has affected quality of life, health and fitness in various countries at different times in history. The work looks at the connections between diet and such diseases as beriberi and scurvy, and the role nutrition plays in conditions such as weight and height increases, diabetes, and obesity.

Macmillan Reference USA, 2 volumes
ISBN: 9780028659909

Gale Encyclopedia of Surgery

In-depth coverage of surgical procedures and related topics, such as anesthetics, medications and postoperative care. Includes diagnosis, preparation, after-care, risks, morbidity and mortality rates, alternatives, and more.

Gale, 3 volumes
ISBN: 9780787677701

Encyclopedia of Public Health

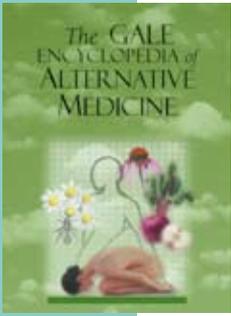

Examines topics as broad in range as environmental health, drug abuse, epidemiology, nutrition, demographics and diseases.

Macmillan Reference USA, 4 volumes
ISBN: 9780028658889

Gale Encyclopedia of Mental Disorders

Includes entries for 150 disorders. It also features entries for prescription, alternative and over-the-counter drugs, as well as the therapies used to treat mental disorders.

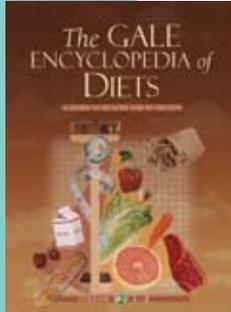

Gale, 2 volumes
ISBN: 9780787677299

Gale Encyclopedia of Alternative Medicine

Unbiased information on alternative and complementary medical practices. Covering all aspects of the subject the encyclopedia identifies 150 types of alternative medicine including reflexology, acupressure, acupuncture, chelation therapy, kinesiology, yoga, chiropractic, Feldenkrais, polarity therapy, detoxification, naturopathy, Chinese medicine, biofeedback, Ayurveda and osteopathy.

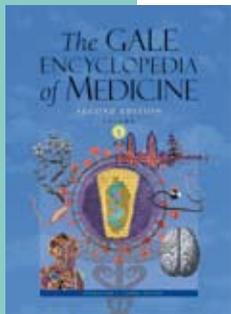

Gale, 4 volumes
ISBN: 9781414448770

Gale Encyclopedia of Children's Health: Infancy Through Adolescence

Provides in-depth coverage of pediatric diseases and disorders, along with issues related to physical and cognitive/behavioral development. The set provides a much-needed service to new parents and promises to be a frequently used resource in any library.

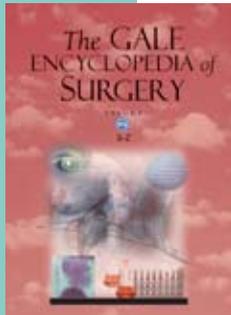

Gale, 4 volume set
ISBN: 9780787694258

Encyclopedia of Drugs, Alcohol & Addictive Behavior

Addressing social, medical, legal, and political issues related to substance use and addictive behavior. The third edition also expands international coverage of historical and modern perspectives on drug, alcohol, and tobacco use in more than 30 countries and regions, including the Caribbean, the Middle East, and China.

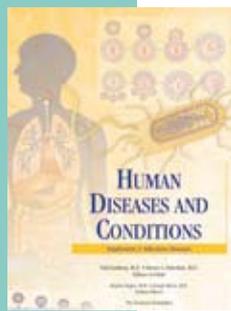

Macmillan Reference USA, 4 volume set
ISBN: 9780028661148

Gale Encyclopedia of Cancer: A Guide to Cancer and Its Treatments

A comprehensive survey of 120 cancers, cancer drugs, traditional and alternative treatments and diagnostic procedures. The Encyclopedia includes entries covering cancers, cancer drugs, treatments, side effects and diagnostic procedures.
