#### Using Two Different Indexes Joined by AND

Search term	Index	
Orwell, George	Author	AND
Animal Farm	Book title	

This Advanced Search query searches for content where the book being reviewed is Animal Farm, and the author is George Orwell.

#### Using Limiters

Selecting one or several of the tickbox limiters will allow you to refine your searches so that you can retrieve the type of content you are looking for. If you only wish to search for book reviews, tick 'Books'. If you only wish to search for poetry, tick 'Poem'. If you wish to search all types of review material, tick 'Reviews' and it will search all the sub-categories (e.g. books, exhibitions, journals...) under that heading.

You may also limit your searches by Publication Date of issues of the TLS – this can be between, before, after, or on a given date range.

### How Do I Search For...?

The table below provides tips on how to search the specific types of content and provides a sense of the range and wealth of material available in the archive.

To find this...	Do this...
<b>Book Reviews</b>	<p>In Advanced Search, type the title of the book and select 'Book title' as the index type. Select the 'Books' limiter.</p> <p><b>Try: <i>Lady Chatterley's Lover</i></b></p> <p>Alternatively, search by author name. Type the author's name in the following format – surname, first name. Select 'Author' as the index type. Select the 'Books' limiter.</p> <p><b>Try: <i>Capote, Truman</i></b></p> <p><b>NB: The TLS often reviews 2-3 books in one article. In the results page, the metadata in each result will only display the first book reviewed in that article, but the article should still contain a review of the book you have searched for.</b></p>
<b>Poetry</b>	<p>In Advanced Search, type the poet's name in the following format – surname, first name. Select 'Contributor' as the index type. Select the 'Poem' tickbox from the 'Editorial and Commentary' limiters.</p> <p><b>Try: <i>Auden, W. H.</i></b></p>
<b>Articles</b>	<p>There is a wide range of articles in the TLS, which can be searched in a variety of ways, depending on the information being looked for – a Full Text search on 2 or 3 words may be the most effective option. Select the 'article' tickbox from the 'Editorial and Commentary' limiters.</p> <p><b>Try: <i>China AND censorship (as Full Text searches)</i></b></p> <p>A common feature is 'books of the year'. To search for these articles, type 'Books of the year', select 'Article title' as the index type, and select the 'article' tickbox from the 'Editorial and Commentary' limiters.</p> <p><b>Try: <i>International books of the year (as Article Title)</i></b></p>
<b>Cinema Reviews</b>	<p>In Advanced Search, type the title of the film and select 'Book title' as the index type. Select the 'Media' tickbox from the 'reviews' limiters.</p> <p><b>Try: <i>ET</i></b></p> <p>To search by director, you will need to search the Full Text, as director names are not part of the metadata. Enter the director's surname, select 'Full Text' as the index, and select the 'Media' tickbox. This will only work if the review mentions the director, but they usually do.</p> <p><b>Try: <i>Scorsese (try with fuzzy search on 'low' – the TLS misspelt his name a couple of times!)</i></b></p> <p><b>NB: The TLS has been reviewing films since c.1980</b></p>

Select the 'Obituary' tickbox from the 'Editorial and Commentary' limiters.</p> <p><b>Try: <i>Rudyard Kipling (the result is for his wife)</i></b></p> <p>NB: The TLS stopped publishing obituaries c.1945</p>
